Subject: Phase III Maintenance and Monitoring Plan

Good Afternoon,

Attached is the **Final** Phase III Maintenance and Monitoring Plan. The last revision was submitted to the Unified Command on July 17, 2015 and approved by everyone with exception of the Local On Scene Coordinator. On July 22, 2015 Santa Barbara County requested three changes to be made to the document on behalf of the LOSC. After reviewing their comments one change was made to the plan --a third link for wave data under the definition of significant storm. Because this is the only change made, the July 17th cover page with UC approval signatures was kept in place. With the Unified Commands approval we would like to keep the original signature page and ask the LOSC to provide their signature.

Also attached to this e-mail are the responses to Santa Barbara County comments on the Phase III Plan. Our responses to Santa Barbara County comments explain why we are not revising the Phase III plan (other than adding third link for wave data). Please advise if you approve the comments before they are sent to the county.

Ryan Andersen
